## **YOUR COMMUNITY**

Community Councils around the city need help to improve your local area.

### **Can you be the person to help?**

Associate members do not need to attend meetings or hold official positions - just offering their skills or having some time to support their local community council.

### **Not on the electoral register?**

No problem as not a condition for Associate Members.

Why not pop along to your local Community Council to see what you can do to help.

These are some areas where you could help

- Gardening
- Planters
- Social Media/Websites
- Taking minutes at meetings
- Distributing information
- Helping with other projects
